

NK 50 MINI

Designed exclusively for fresh product applications

- ✓ Fresh products application only
- ✓ Very compact & simple structure
- ✓ Low maintenance costs
- ✓ Ultra Slim evaporator

New NK 50 MINI NEO KOOL refrigeration unit is a cooling system with engine driven compressor developed for fresh product applications on small trucks and vans.

Specification

Model: NK 50 MINI R-134A

Capacity (Ambient 35°C)	Temperature	Kcal/h	BTU/h	Watt
	1.7°C	2000	7930	2323
	-18°C	900	3571	1046

Refrigerant HFC R-134a

Evaporator Air Flow (Turbo Fan) 1100m³/h

Compressor(Engine driven) SANDEN, SD5H11 (108cc), 2400rpm
VALEO TM-13HS(131cc)

Current consumption 12Vdc, AMP 22A
24Vdc, AMP 12A

Dimension	mm	Height	Width	Depth
	Condenser	188	722	385
	Evaporator	177	650	589
